PLUGHUGGER R&D SERIES

TEENAGE ENGINEERING OP-1

**MODUS
OPERANDI**

PLUGHUGGER

how to install

This is how you install sounds into Omnisphere 2.

1. Open Omnisphere.
2. Click on the **Utility** button at the top left.
3. Select **Install .omnisphere**
4. Locate the **Plughugger Modus Operandi.omnisphere** file.
5. That's it!

about the sounds

Modus Operandi is the second release in our R&D series. When we start to make one of our proper soundsets for Omnisphere, we always start off with a week or two experimenting with sounds, effects, filter and envelopes. Previously, those sounds were thrown away once we started to work on the real soundset.

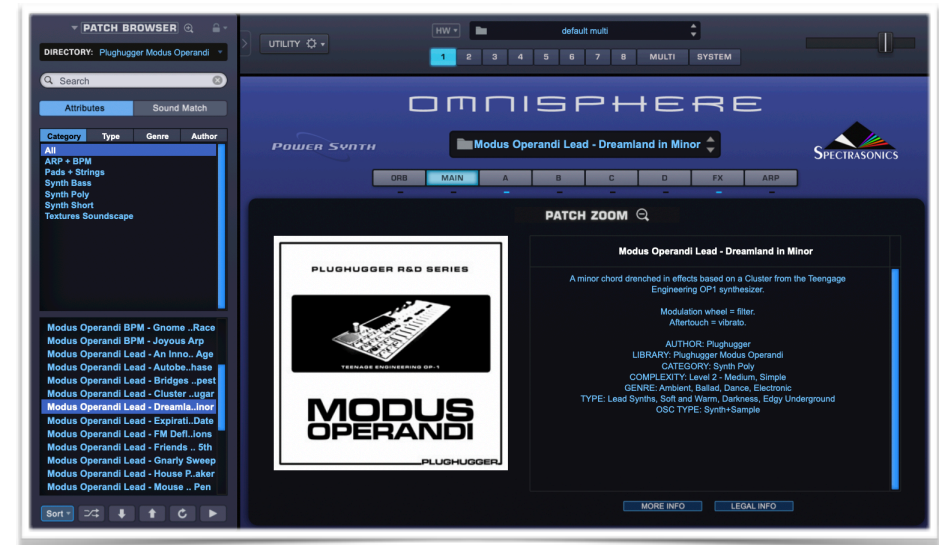

The R&D series is where we keep those sounds, polish them up and release them for free as **an exclusive to all our subscribers to our newsletter.**

Modus Operandi is based on the absolutely fantastic OP-1 synthesizer from Teenage Engineering, and these experiments later turned out to become the Operator One soundset for Omnisphere.

None of the sounds in this collection can be found in Operator One. They are all exclusive for this collection.

Modus Operandi contains 35 new presets and 13 new soundsources:

- 6 Arpeggios / Sequences
- 7 Pads / Synth strings
- 5 Bass sounds
- 14 Synth sounds
- 3 Textures and soundscapes

license agreement

Please read the terms of the following agreement before using this software.

The sounds that came with this agreement are the property of Plughugger, which in turn is the property of Carl Löfgren. The sounds are licensed – not sold – to you, for use in your music productions.

The right to use enclosed sounds is only granted to the original end-user of the product. This right is not transferable – which means you cannot sell these sounds second hand. If the product is sold, yours and the buyers license are no longer valid.

All lending, renting, copying, duplicating, trading or reselling of this product or its contents is naturally not allowed. You may neither upload or download this product or any sounds from it, on the Internet.

You can use the sounds in any type of *commercial or private music production* without permission or paying any further fees than the original price of the product. You may modify the sounds to your needs. The only restriction is that you must not use the sounds in an isolated manner – for public releases the sound must always be used in a musical context. You are not allowed to create a sample library based on the sounds you purchase from Plughugger.

The sounds provided are licensed "as is" without warranties of any kind. Neither the producer, nor Plughugger can be held responsible for any direct or indirect or consequential loss arising from the use of this product in whatever form.

operator one for omnisphere 2

Operator One is an electronic soundset based on the sounds from the Teenage Engineering OP-1.

Be sure to check out the demo at plughugger.com.
